

Mobile CCTV Towers

Safety at a higher level

Security
tower

About Us

We are a manufacturer of mobile monitoring towers. We aim to address all your needs, therefore, as the only ones on the market, we guarantee high availability of our product - Security Tower.

Thanks to our diligently designed production process and many years of experience in the metal industry, we are able to meet all your expectations with regard to the quality and timing of our services.

Our main goals are the practicality and robustness of our product. We would like our towers, that are already in use, to have only the best reputation among their owners.

Technological advantages

Learn about the aspects that differentiate us from our competitors on the market.

- Maximum mast height: 6.4 metres (guarantees unprecedented rigidity and the absence of vibrations, which is the basis for the correct operation of artificial intelligence algorithms)
- Mast made of galvanised steel,
- Hermetic box for electronics,
- Can be adapted up to three frames for photovoltaic panels
- Graphic customisation possible,
- Load-bearing capability,
- Individually equipped according to customer's requirements

Overall dimensions:

- Tower base width: 1086 mm
- Overall height of the booth: 2070 mm
- Maximum extended mast height (from ground to highest point): 6411.50 mm
- Photovoltaic panels frame: 1800x1070 mm
- Camera holder size x4 : 400x170 mm
- Size of internal box inside : s/g/w: 495x28.5x89.5 mm
- Net weight of the construction: 380kg

Costs and contact

Cost of the tower: 3,500 € (complete structure + wrapping + two frames for mounting panels)

Trailer: 5,000 € (not obligatory)

In case of additional questions, individual orders or personalization, please contact your sales representative, who will be happy to advise you, make an individual offer at meeting, by phone or e-mail.
